WOLFGANK

BEYOND THE STYX

BOOKING KIT

2026 / 2027

A concert isn't something you watch.
It's something you *cross*.

WOLFGANK is a 75-minute musical and visual experience performed by four masked musicians. Blending cinematic electro, techno, rock and monumental orchestrations, the show takes the audience to the heart of a mythological story in which music, light and images become one.

THE STORY
BEYOND THE STYX

Inspired by Greek mythology, the world of WOLFGANK reinvents the crossing of the Styx and the journey of souls through an original, dark and contemporary mythology.

On the border between the world of the living and the world of the dead, invisible fragments remain: memories never passed on, words held back and truths left unspoken.

Marked by the obol, WOLFGANK is the only one able to cross the Styx, gather these memories and bring them back to the living. But every fragment he carries slowly alters his own identity.

Together with Osha, Kettu and Tann, he sets out to find a forgotten passage, hunted by those who seek to seize this power.

A musical and visual epic where preserving the memories of others could mean losing your own.
